

Dress Code

Professional and appropriate attire for all students

At Aylesbury UTC it is important that our students have a smart and business like appearance. The following dress code takes this approach into consideration but also allows students to show a level of individuality. We want our students to effectively represent Aylesbury UTC in school, the local community and the workplace. We believe that all students should take pride in their appearance. Smart dressing conveys positive feelings in terms of commitment and attitude to work and it also enables students to show that they fully embrace our ethos.

This dress code will allow you to choose clothing from a wide range of retail outlets rather than confining you to a uniform shop. We are aware that construction students need to comply with health and safety regulations as well as wearing clothes that fit the environment they are working in.
